SUMMARY

Full Stack Developer with internship experience, skilled in React.js, Node.js, JavaScript, SQL, and Python. Experienced in building responsive web applications and REST APIs with strong understanding of frontend and backend development.

EDUCATION

Chouksey Engineering College <i>B.Tech, Computer Science and Engineering</i>	Aug 2021 - May 2025 <i>SPI : 7.56</i>
S L S Academy H. S. School <i>12th— CG Board (PCM)</i>	July 2020 - May 2021 <i>91.8%</i>
Saraswati Shishu Mandir H. S. School <i>10th— CG Board</i>	July 2018 - May 2019 <i>75.8%</i>

EXPERIENCE

Software Engineer Intern - ProgMaster Pvt. Ltd.	Jan 2026 - April 2026
- Engineered 10+ reusable UI components using React.js and Tailwind CSS. - Integrated REST APIs and handled asynchronous data fetching. - Enhanced application performance and optimized frontend rendering. - Collaborated with team members in debugging and feature development. - Built backend APIs using Node.js and Express.js. - Managed database operations using MongoDB.	

PROJECTS

Personal Portfolio Website <i>React.js, Tailwind CSS, Framer Motion, EmailJS</i>	Aug 2025
- Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills, and professional experience. - Implemented smooth animations and interactive UI using Framer Motion for enhanced user experience. - Developed reusable React components following modern frontend architecture. - Integrated contact form functionality using EmailJS for real-time communication. - Deployed production-ready application with version control using GitHub.	
CINERVERSE (Movie Web Application) <i>React.js, Tailwind CSS, Vite, React Router, API Integration.</i>	Aug 2024
- Designed a modern movie discovery platform inspired by IMDb with real-time API integration. - Executed SPA architecture using React Hooks (useState, useEffect). - Managed API calls and asynchronous data handling using JavaScript Fetch API. - Applied client-side routing and dynamic URL parameters. - Optimized user experience with responsive design and fast rendering using Virtual DOM.	

TECHNICAL SKILLS

Programming: JavaScript, Python
Frontend: HTML5, CSS3, Tailwind CSS, React.js, Redux, Redux Toolkit
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, SQL Server
Developer Tools: Git, GitHub, VS Code
